Comments: I urge you to provide the Plan with the Forest Service's "Primitive" standard, the most protective standard available. The Plan should also protect the "wilderness character". These are vital to help ensure that this region and it's wildlife can continue to thrive. I also support a modified Alternative D wilderness recommendation that also includes Lake Nellie Juan and the lands within the WSA boundary that were purchased for restoration of wilderness resources following the oil spill. Additionally, the Chugach NF must work to monitor and eliminate all ongoing illegal recreational chainsaw use in the WSA.
