Comments: Each year I look forward to when the snow machine season opens in the mountains. I've lived in Alaska for 15+ years and usually ride from the turnagain parking multiple times through the season.

It is nice to live in Anchorage and able to only drive a hour to go snowmachine. Otherwise it's a 2-3 hour drive to get to a different location. I have some great memoeries of ridding there and want to share those exeperiences with others.
