Comments: I am in support of motorized activities in Chugach National Forest. As a long time Alaskan who grew up in the Forest, maintaining the access to this wonderful area is paramount. We shared usage with non/motorized sports enthusiasts and everyone enjoyed the park. I also enjoy non-motorized sports, but I kick a lot of money into the local economy with my motorized use. I am not against joint use, or defined regulations to provide protective multi-uses. Many other states have successfully designed motorized functions to the benefit of all and their economy. Motorized access also encourages family use. Again, I support motorized use in the forest.
