Comments: I am in favor of motorized access to the Chugach Forest. I started riding snowmobiles in this park before it became a park. I have taken my children riding in Chugach Forest and now have my grand children that are learning to ride,that will be going into the Chugach Forest. This is always a big family event every time we ride in the Chugach Forest. There is plenty of room in the Chugach Forest for all user groups.Snowmobiling is a very big in Alaska as we have winter for 7 to 8 month out of the year. Lots of Visitors from out that access the Chugach Forest on Snowmobile which grows the Alaska economy with jobs.
