Comments: So the fact that they want to shut down all riding in this area is not fare at all tourist An hikers dump more trash on the lands than any snowmobile. We respect were we ride An I do not think we should have it taken away. An the fact that people that don't even live here get a say in this is beyond me why should they get to have a say in Montana what goes on in Alaska. Us as Alaskans love to ride an the freedom of Alaska. But hope you take this letter into consideration
