Comments: Hello,

I just moved to Alaska from Seattle WA. I have recently become in love with Alaska and the Chugach mountains. Last year was my first time recreating by motorized vehicle (snowmobile). I would be very disappointed if parts of the Chugach mountains become inaccessible by motorized vehicle as that is the soul reason of me moving to Alaska. I propose something along the lines of Plan B. Anything else is unacceptable. thank you for taking my comment into consideration.
