First name: William

Last name: Snyder

Organization:

Title:

Comments: Alaska is a 90/10 10/90 State. Ninety percent of the population lives on ten percent of the land. But ninety percent of the land is owned by ten percent of non-residents. We are already limited on what lands we can recreate on, whether by the BLM, Forestry, Native Corporations, Military Bases and ranges and so forth. We are again limited by the limited road system, and lack of infrastructure. If anything more area needs to be opened up in the Chugach, in fact open up the whole thing to everyone. Reverse the segregation of skiers only are in Turnagain pass and open up the area for everyone.
