Comments: Hello,

My family and I have lived in and utilized the Chugach since 1976. The best option for being able to enjoy this region is on motorized vehicles. The low population density, large size of region and Alaskan's proven track record of properly managing their own backyard should be proof enough that added regulation is not needed. There are many small businesses that depend on the motorized enthusiasts for their livelihood. Further regulation will have far reaching ripple effects, so please things as they are.

Thank you for listening,

Brian
