Comments: Hello, I write to you today as an avid motorized user. I do not support the land management revision getting rid of snowmobile and other motorized use access. As someone who loves traveling to new locations (and alaska being one I would love to visit), my desire to visit decreases SIGNIFICANTLY when snowmobiles/dirtbikes/mountain bikes get shut out of PUBLIC LAND. Tourism is a large source of income, do you want to lose tourism? There is no reason why people cannot share the land. Blocking out motorized use is not fair to anyone who loves doing those things. As a rider for almost 20 years, it is my passion and how i get out in the wilderness. Don't take these kinds of things away from my kids (one day) and myself. Thanks for your time.
