Comments: Do not let people out side of Alaska have a say in what we do with our land this needs to be worked out with all the people that use it and boil down to something that can be read in understood a 344 page document is a load of crap. to have to be a lawyer to understand 1/2 of it and a government official to understand the rest of it. I don't like the fact that you are letting people form outside of out state have a say in what goes on here this is a local problem. not a problem for people from green peace form CA or DC. From what I can understand which is hard to read as Im just one of the average users. So with that said I vote for a new version of A nd B. Please review and work with the people that use it not the ones that will never even see it.

thanks Eric
