Comments: Dear Forest Service,

I am writing you to request stronger protection management plan for the Chugach National Forest. I think it is critical the plan must protect the wilderness character of the WSA. Rather than protect them as "existing character," I think they should be protect under the "Primitive" standard.

I also strongly believe in strong protection for the lands within the WSA that the federal government purchased following the 1989 Exxon Valdez oil spill.

I support a modified Alternative D wilderness recommendation that also includes Lake Nellie Juan and the lands within the WSA boundary that were purchased for restoration of wilderness resources following the oil spill.

Sincerely,

Trevor Heneveld
