Comments: I have had the great pleasure of accessing some of the most beautiful areas of Alaska thanks to snowmobiling. To see any of these areas removed from access, is to say the least, depressing. Many of the opinions in the reply section are form letters sent just to generate numbers in favor of closure, wiith no good reason stated to close the area.

I hope when the decision is made that it is done in the best interest of all users. I support responsible motorized use. Thanks for the chance to reply. Gene
