First name: Laura

Last name: Gorman

Organization:

Title:

Comments: I support the preservation of wilderness areas. Therefore, I support the "wilderness character" provision for this forest. It should be maintained to a primitive standard. Not surprisingly, I oppose the use of chainsaws in the area. I support Alternative D if it also includes Lake Nellie Juan. To me, it is of utmost importance that wilderness areas remain wilderness in the strictest sense. I am an individual who prizes the thought of wilderness areas even if I never have access to them.

Thank you.
