Title:

Comments: This is the first thing I've actually cared enough about to write anything. As a born and raised Alaskan I will never be able to understand where people get off living in another state attempting to tell us what we can do and not do with our own local land. It does not matter if their democratic republicans liberals or conservatives a state land should be up to the people that live in that state and if it is an issue it should be brought up locally on a local level not on Facebook on a ridiculous front to attempt to make huge changes to public land. Thank you for your time and please do not believe these social media trouble makers. -AK4L
