Comments: Thank you for taking the time to read public comment. I am a Kenai Peninsula Resident. I enjoy both motorized, and non-motorized usage of the Chugach. I enjoy riding ATVs up to the Mine near trail lake. I enjoy riding snowmachines in turnagain pass. I also enjoy backcountry skiing and snowboarding on Tincan and Magnum. I think that the current recreational opportunities are sufficient for both motorized, and non to enjoy the areas that CNF has to offer. I do not think that there should be any stronger restriction on motorized vehicles than there already is. CNF isn't like national forest in the lower 48 with hundreds of miles of logging roads. Motorized access is already restricted to very specific areas that reduce the impact to the natural vegetation and surroundings. Please do not restrict access for motorized vehicles under the new plan. Thank you.
