Title:

Comments: I will start by sayings, this is not my riding zone nor is a zone that I spend a lot of time at. Itis for many friends of mine though, while reading through there comments it got me thinking about how I would feel if One of my favorite places was in jeopardy of being closed because a group of people who never experience it in a way I do fell they know better. I plead with you not to take away our right as Alaska's to use the remaining motorized zone of the Chugach Forest from us.
