Comments: Thank you for the opportunity to comment on this proposed forest plan. I would like to express my support for additional recreation opportunities for snowmobiles and other over snow vehicles such as tracked ATVs and SxS utility vehicles, as well as snow bikes. I have visited Alaska many times for both work and for vacation - mostly around snowmobiles. Traveling over the blanket of snow offers a means to explore and enjoy areas that are not accessible in any other way, all without disturbing any of the sensitive vegetation or landscape that is protected by the deep snow. The tourism based money I spend in the local villages while recreating there helps support those local economies. I eat, sleep, and buy supplies in the local businesses. With this in mind, I would like to support a version of this plan that increases opportunities for me to ride and explore this land.

Regards,

Andrew Mills
