Comments: I have been a life long Alaskan I grew up outside loved the outdoors the winter everything about Alaska but one thing I've loved a little more is snowmachining some of the best memories I have, have been on a snowmachine. The scenery you can access, the freedom riding gives you, just everything about it is amazing. Please don't shut down our riding areas it's been proven time and time again that winter motorized sports cause less environmental impact then even summer hiking trails. Snowmachining is a great family sport. People of any age can enjoy it please consider this and leave our riding areas open to the public
