Title:

Comments: I do not support taking away people rights to access any areas. We pay for registration in order to be able to get out and see and explore areas we otherwise wouldn't be able to. We that ride snowmachines help the economy as a whole. Buying gas, parts, food, hotels etc. we are all willing to share any areas with other forms of recreation be it skiing, hiking, biking, whatever someone else chooses. I have on many occasions taken skiers and snowboarders up to the top of a mountain so they could better enjoy their experience as well. Please don't take away my right to enjoy the backcountry how I choose to.
