Title:

Comments: I'm a born and raised Alaskan native who loves recreating in all kinds of ways in our beautiful state! My family has lots of history in the Mills Creek area, some of my family was the first on the gold rush. I remember many many trips with my father hunting, gold mining, berry picking, just going back in the Mills Creek canyon to hear his stories and see the sights! I would really love to be able to keep going back in these areas with my son and future generations
