Comments: To whom it may concern

After reading through the 4 different options available for the revision, I am in support of option b. I grew up in mn and starting riding when I was 10 years old with my family. By the time I was 16 my dad starting taking me to the togwatee area in Wyoming and have been hooked ever since. In 2008 my wife and I moved to your great state of Alaska and lived there for 3 years. Both my wife and I enjoyed the chugach forest in many different recreations including hiking and mountain biking in the summer and snowmachining in the winter months. There is not a more amazing mountain range on the planet to ride in my opinion. I would like to keep this access available for future generations of outdoor enthusiast like myself, and would hope to take my now 3 year old son to Alaska someday and ride the same area dad did. Most of this sport is about family, just what my dad did for me I'd like to do for my son. I would personally like to see more access available for motorized.use in the chugach or multi use areas . Thank you for your time .
