Comments: To whom it may concern,

My name is Hunter Keogh, and I was born and raised in the great state of Alaska. I am now married and planning on staying here till the day I die. I hope my children have the same opportunity in the Chugach that I have. I have Snowmachined, hiked, fished, hunted, and snowboarded the Chugach and loved every minute of it. The Chugach in the winter on a snow machine is where I and many like me, are happy. It's such a gorgeous place, that I think all should get to enjoy it and take advantage of its beauty. I also work for a power sports dealer in the winter months, with more areas potentially going to be shut down, that will hurt my livelihood and many like me. This is why I support option B and would like to see more zones opened in the future. With the new technology that is coming out every year, we can get deeper and farther in to zones and not bother the non motorized users, and when there is enough coverage and you open these zones, we have less environmental impact than ever with the longer tracks and lighter machines!

If you would like to contact me feel free.

Hunter Keogh
