Comments: Hello friends, Along with many others I believe in a life of balance. Shining down more motorized areas in these beautiful national forests will throw off the balance that has been working for many years. I learned to ride in this national forest and those are memories that no one could ever take away from me I plan to make the same memories with my children and the closure of this writing areas what take that privilege away for me. I am in support of Plan B . Any other option would throw off the balance Of the motorized areas and his national parks.

Good day.
