Comments: Good day im robert small life long alaskan life long outdoor enthausiest. Im putting in my comment to not close us alaskans riding areas, most dont just use the backcountry for recreation some use it as a way of life. If areas are closed it wont just be taking away what i love to do but it would also be taking away my pay check. Im a powersports mechanic at the alaska fun center. Closing the crutial riding areas for us alaskans would do trumendious damage to a lot of things in the state, mom and pop gas stations, the alaskan owned resturants in little towns we drive through would take a hit and recreational shops will start to loose buisness and or close due to not having anywhere to enjoy there thousands of dollar toys. I hope my comment on this matter will help you in choosing the right thing to do for all us alaskas and future alaskans. I would like my children to be able to have the same freedoms of the backcountry as i have had Thank you.
