First name: brady

Last name: horne

Organization:

Title:

Comments: I am a 51 year old father of two boys, my wife and I have been using the Chugach Forrest for the last 39 years, before we were married we both had family adventures frequently as children in the national forest. When we were married we continued getting out and being active in the outdoors, snow machining, sledding, dog mushing, 4 wheeling. After having kids we continue to do all the Alaska outdoor adventures we can, Please do not limit motorized activity in the national forest, they are for everyone.
