Comments: Hello, I am writing my comment on behalf of the motorized users in Alaska. I have been enjoying the states beautiful landscapes via my snowmobile for nearly 20 years now and would hate to see places that I have responsibly enjoyed become closed down for future generations. From the proposed plans I favor option B. Please DO NOT use plans C&D. I would also like to include that I do not favor expanding anymore wilderness area. I feel that the 1.4 million acres already in the 2002 plan is very acceptable. Motorized corridors like 20 mile are a perfect idea. If we could include the mills creek Mining road just north of summit lake I would greatly appreciate it!

Thank you,
Sean Hansen
