Title:

Comments: -The Plan should protect the "wilderness character" of the WSA, not the Forest Service's weak proposal to protect just its "existing character." The Forest Service's "Primitive" standard should be used.

-The lands within the WSA were purchased with the promise that they would be protected "in perpetuity for conservation and wilderness purposes". That promise should be fulfilled.

-Ongoing illegal use of chainsaws should be stopped.

-I support a modified Alternative D wilderness recommendation that includes Lake Nellie Juan and the lands within the WSA boundary that were purchased for restoration of wilderness resources following the oil spill.
