Comments: Continued access to these mountains with motorized use means so much to me. I truly enjoy and look forward to riding turnagain, placer river, Johnson pass, lost lake and nellijaun if that falls under your jurisdiction. I am looking forward to taking my kids there one day and showing them the glory that is chugach mountains. I also love snowboarding turnagain too. Using the sled as bumps up the mountain. I haven't used the mountains for summer use much but I can imagine it's pretty fun too to hike and bike.

Wilderness and motorized use can coexist with the correct management.
