Comments: I am writing in regards to the Chugach Forest Plan revision #40816. My family and I are opposed to plan C and D and strongly encourage plan B. We like to recreate in the Chugach year round and feel the that motorized users should not be restricted or reduced as it could/would put a strain on certain areas if done so. Shut down one or two zones and the populous ends up in one area causing congestion, which creates very dangerous conditions. Avalanches and collisions will most likely occur more rapidly. I would rather people ride and enjoy the Chugach.

Thank you for your consideration.
