Last name: Lillard

Organization: Lupine Ridge Farms

Title:

Comments: I fully believe that this is for banning of "domestic sheep & goats" on private land! There are private homesteads in the Chugach Natl.Forest that depend on their animals for food, milk, & fiber. There is absolutely NO PROOF that domestic sheep & goats present a risk to wildlife & I believe this would lead to the banning of domestics in other areas of Alaska. I also wonder if this isn't the work of the Wild Sheep Foundation? I would hope you are taking the time to research & not listening to fearmongering.

There are better ways to protect wildlife & not infringe on the civil rights of private property owners.

Thank you,

Marchell Lillard
