Comments: Comments On Draft Wild and Scenic Suitability Report

Dear Nez Perce Clearwater National Forests,

Dear Nez Perce Clearwater National Forest,

I am a avid outdoor enthusiast that grew up on the wild rivers in Idaho. The rivers are also are the reason my family and I will always call Idaho home. The recreation opportunities that these rivers provide give my family, friends and I a place to connect and decompress. The wild rivers of Idaho have served as a special place for my family and I to come together after being apart due to my service in the military. The rivers have become an effective way to help veterans recover from the stress of war and disabilities.

I am writing to ask that all 89 streams that you have found eligible for Wild and Scenic designation remain protected as eligible in the new forest plan, and to voice my support for their ultimate designation. If you finalize the Draft Suitability Report, I ask that all 89 streams be found suitable in the final report.

As the world becomes more developed the protection of these Wild and Scenic becomes more important. The value that these protected rivers have are increasing exponentially as they become more rare. The local economy benefits from the sustainable recreation that these rivers provide. The continued protection of these rivers is an investment in the future.

Thank you for considering these comments

Sincerely,

Lucas Glauser
