Comments: CONSTITUENT RESPONSE: Wild and Scenic Suitability Report

Dear Nez Perce Clearwater National Forests,

Dear Nez Perce Clearwater National Forest,

I live in Oregon, and have had the privilege of enjoying and working on Wild and Scenic Rivers-they have sustained me on a spiritual and personal level, but also are very important for preserving America and setting an international conservation standard, as well as keeping ecosystems and clean water alive and healthy.

I am writing to ask that all 89 streams that you have found eligible for Wild and Scenic designation remain protected as eligible in the new forest plan, and to voice my support for their ultimate designation. If you finalize the Draft Suitability Report, I ask that all 89 streams be found suitable in the final report.

When you (Congress)voted in the Act and designated these rivers, you made a vow to protect them, and you should stand up now and not let the American people and the only strong preservation laws we have be broken-you made a promise and I expect you to keep it!

Thank you for considering these comments.

Sincerely,

Joan T Randall
