Comments: Comments On Draft Wild and Scenic Suitability Report

Dear Nez Perce Clearwater National Forests,

Dear Nez Perce Clearwater National Forest,

I am writing to ask that all 89 streams that you have found eligible for Wild and Scenic designation remain protected as eligible in the new forest plan, and to voice my support for their ultimate designation. If you finalize the Draft Suitability Report, I ask that all 89 streams be found suitable in the final report. These are pristine wild areas--a rare state that if ever ruined, would never, ever be able to be recovered. Renewable resources are found all over the west. Wild and scenic areas are not renewable--but they can be enjoyed for generations to come if they are protected. Those same generations bring in valuable tourist dollars and support local businesses over and over again. Let these valuable rivers and streams support the local economy in the way that nature intended--wild, scenic, rugged and re-usable in their pristine state.

Future generations are counting on you.

Sincerely,

Rebecca Graham
