Comments: To who it may concern,

I Was born and raised in this great state of Alaska we call home. I have been recreating in the Chugatch for most of my life from summer hiking to winter snowboarding and snowmachining. Though I love all seasons in Alaska my most enjoyable moments each year are found on a snowmachine high in the Chugatch from Lost lake, snug harbor, Nellie Juan, Whittier, Placer River, to Moose Pass I spend as many weekends as possible snowmachining and enjoying the incredible sights the Chugatch has to offer. I strongly urge and ask that you push for Plan B in the upcoming forestry revision. I would be more than happy to share my experiences and how I and the rest of the snowmachine community would love to have the same access that we have today for years to come.

Sincerely,

Grant
