Comments: Hello,

I'm strongly against the elimination of motorized use for these lands. Yes, I live in CO, but I have been an active snowmobiler for about 6 years. Going into the forest with my wife and 2 sons has created unbelievable memories for us. We love the challenge of riding in new areas and safety is always the first consideration. Being able to explore these amazing areas, seeing things that you're only able to see by snowmobile has truly enhanced our lives. As we've improved in our skill and equipment, each year, we now look for new places to ride, with our dream locations being mountains in Canada as well as Alaska. When we travel to new areas, the cost can be considerable, however we look at it as an investment in the experiences with each other. I ask that you please reconsider instituting the motorized ban for these areas. Thank you.
