Comments: I am a life long Alaska born n raised. Spent the last 29 in the snowmachine industry, which my family currently owns Wasilla Arctic Cat, through the winters, summers or break up months I spend my free time out exploring the great states land where you can only get placed by snowmachine or Atv, but what grew my attention about riding in Chugiak area such as turnagain pass or Johnson pass was all the riders that would come into purchase new sleds every winter n plan trips to these areas. By having these places closed down would cause a big decline in business around Alaska not just snowmachine dealerships. But auto parts stores, gas stations like girdwood, n state maintaining roads..
