First name: Caldon

Last name: Taylor

Organization: Utah Snowmobile Association

Title: President

Comments: As the President of the state of Utah's Snowmobile Association and a member of the International Snowmobile Congress, I would like to State that I am supportive of full fellowship access. Motorized access has proven to be a very effective way to travel, recreate and and even Work in all areas of places where there is snow. Please concider leaving things as close to the way they are as possible. The manufacturers have improved Snowmobiles to where they are close to zero emissions and there is less of an impact than any other form of recreation.
