First name: Ben

Last name: Winkelman

Organization:

Title:

Comments: I grew up in this part of America and lived in Camp Grisdale as a child. I moved into town and as an adult chose to raise my family here because I have open access to this part of the World. Continued access is so extremely important to me and my family. The forest service has a duty and obligation to figure out how to keep these roads open for public recreational use. Soany people live and visit this area due to the access.
