Title:

Comments: As a native of Wyoming, an Athlete in the Snowmobile Industry I pray relief from these forest revisions across our great nation. Taking public land away from public tax paying citizens is a form of robbery & theft. I urge you to choose based not only on your personal feelings in these situations but also on the morality of our Constitutional Rights as Americans.

TO WHOM IT MAY CONCERN;

Mr/Ms Commissioners and Elected Officials;

Hi! I'm Lyric Murphy; a Sponsored Snowmobile athlete from Wyoming. I love to visit Alaska. Your mountains are endless. The wildlife is incredible, and your back country in the winter is some of the absolute pristine in the world. There are many of us "Lower 48" folks that have created life long memories time & time again in your state. When these closures and limitations occur, so does the limits of funds spent on travel and tourism. I urge you, and I pray for your committee to choose the right path and leave the land in the hands of the people for back country usage.

I must add In return, I believe recreational responsibility is a HUGE priority in these matters. I feel stiff penalties are deemed appropriate for those who visit and don't care for our lands in a decent manner should be punished accordingly. As much as it pains me to say: there are folks in every back country hobby & sport who just don't respect the lands, leaving behind rubbish and not being mindful of parking areas , riding areas and much more. I believe TOGETHER, as sledders, skiers, heli sports, off road summer motorized & mechanized, hiking enthusiasts and conservationists alike can find a balance in one another to be mindful, respectful & kind to our earth. BEFORE we just close off for one group what another may enjoy: let's find that balance and do the right thing for ALL tax paying back country enthusiasts alike.

Respectfully Submitted;

Lyric Murphy
