Comments: I would like for the party's involved to consider my letter and my hopes that the Chugach area remain open to motorized use. As an outdoor enthusiast both on foot and by vehicle I feel it's only fair for ALL people to be able to enjoy OUR land both by foot and by other means including horseback, mountain bike, dirt bike, snowmobile etc. My experience of riding snowmobiles in this mountain range nearly 12 years ago is one I will never forget and my hopes are to one day bring my kids to this magical place for them to enjoy it as well. This letter is written in the hopes of the USFS understanding and respecting that this area can be shared and experienced by ALL users including the motorized community.

Respectfully submitted,

Chris Burandt
