Comments: I've grown up in Alaska and so proud to call it home. Trying to explore every bit of it before I am old and feeble from bicycles to hiking shoes to camouflage to snowmachines.

Please consider option B to be in the best interests of Alaskans for generations. Closing off Center creek and parts of Chugach and our beloved Kenai ranges and hurts all of the wilderness junkies that love to enjoy our state. Closing corridors and restricting motorized access is the last things Alaskans want for our fragile economy and our adventuring spirit.

Stop letting outside interests keeping you from doing what's right for Alaskans
