Comments: These roads have been designated for public use since they were created. As a tax payer who helped pay for these roads it is my desire that they should be maintained for the use and enjoyment of every public citizen.

These roads are necessary to fighting fires when they occur.

This plan smacks of wild Olympic group trying to hoard the Olympic National Park and Forrest for themselves.

The Forrest will thin itself naturally. The Elk and other game didn't thrive in the park until after it was logged. thus opening the forest that had huge trees laying all over the forest floor. Many of the plans that people come up with usually delay the forest resorting to its natural state.

The next object I have is that the next generation of young people will not have the chance to experience the scenic beauty of the southern Olympics.

Trail need to be maintained so that old and young can enjoy and appreciate what Teddy Roosevelt started for us.
