Title:

Comments: Hello, I submitted already but heard that some of the comments have been lost. My last comment was somewhat vulgar and I want my opinion to be heard.. the chugach mountains has been a second home to me, I've been riding sleds there since I started riding sleds. Turnagain Pass, I have some of my best memories there. Taking this are away from me and many other people will impact my life in a way I cannot express to you, it'll be like losing a loved one. You guys will break my heart, along with many others. Even if the amount of comments submitted are small, there is ten people for every one that ride this area. People are busy, and although they are risking the change of losing this are they have the mindset of "my vote won't make the difference". Hopefully you take into consideration that you will be taking away my release. Riding is what I depend on for happiness, and what I look forward to year round. I base a lot around it! Silly or not, I will no longer have a guaranteed good ride place to go living on the peninsula. I hope I am heard over people that have never even seen the land. Thank you for your time.

My name is Zaxh Blauvelt,

And I AM FOR MOTORIZED USE.
