First name: Ryan

Last name: Britt

Organization:

Title:

Comments: please keep the chugach national forest open to motorized vehicles, option B preferred. we have a daughter that is paralyzed from the waist down and her only way to be able to enjoy the national forest is by the use of motorized vehicles. if you close these lands down to motorized vehicles then you take the ability for our family to enjoy the beauty of the national forest away. please consider the people that have disabilities in you decision, Ryan Britt
