Title:

Comments: Please suspend any further thought in regards to this revision. It is not beneficial to us Alaskans who not only benefit financially from the current use and for the recreational aspect that we truly enjoy.

We like to use our lands and waterways. Locking them up and tieing the users hand with red tape, permits, and fees is not the Alaska I see in my future nor my kids.

Thanks for your time.

Lifelong Alaskan , family man, small business owner, hunter, fisherman, and outdoor enthusiast,

Brian Katcheski
