First name: Andy

Last name: Lazorik

Organization:

Title:

Comments: You should leave it the way that it is because snowmobiling is not only important to many people as a hobby it is also a way of life and it is also an industry. Think about the revenue that you guys earn from this industry. If you close this region then that could really impact how much revenue that you get from this industry and could impact you guys in a negative way and then that money would have to come from somewhere else. It's just not a smart decision to close this area to snowmobiling.
