Title:

Comments: Hello! My name is Jami Mccarty. I have a 9 year old son who rides snow machines. He has learned a lot about respect of wildlife and for the future of the terrain in which we ride. It's important to my kid to learn how to ride safely in the back country and makes no sense why that shouldn't be available to my kid . Never thought. Alaska could be bought out by big corporations. Please do not shut down my sons ability to learn. Thankyou. -
