Title:

Comments: Hello, my name is Kaz Cizmowski. Life long Alaskan, and snowmachine rider. I have enjoyed snowmachining around this amazing state my entire life, and it is a great way to get out and explore all the beauty that Alaska has to offer. In regards to the Chugiak National Forest Revision, I would like to let you know that I would like to see plan B, be the plan that you end up using, which possibly the option for more motorized access at some point. Please keep as much area as you possibly can available for us to explore on snowmachines. Thank you for your time.
