Comments: For the better part of the last 15 years I have spent every winter in lost Lake or turning in areas or up snug Harbor Road it has been a passion of mine to spend my weekends in the mountains and any other day that I can get available I believe it would be detrimental to many different families and organizations if the forest is closed down we live a different lifestyle up here Do you have to get out of the house yes if you sit in your house all winter long you'll go stir crazy and get cabin fever that's why it is important to be able to get out and enjoy our natural resources
