Comments: I've been riding in Alaska for 50 some year's, i am very disappointed to hear they are trying to close many of the areas we ride in, i was born here and i never dreamed we would turn into the lower 48. they call this the last frontier for a reason, this state has a vast amount of snow machines and four wheelers, I am against revisions C&D, Turnagain pass and areas like that are protected by snow coverage before being able to ride , if you don't want any winter recreation in the winter then please move out of state.
